Workshop
(Kirklareli University)

Summary Information

I graduated from Kırklareli University Computer Programming. I want to take part in projects on the web or IT and improve myself in my software life. I am a person who is open to self-development, aims to gain experience and benefit himself and the company he works for. I am a person who adapts to teamwork, focuses on solving problems, is fast and does not give up, keeps up with new technologies quickly, and tries to convey what I know. I want to work in the company I work for many years, take responsibility in every field and show myself.

Hobbies

Photoshop, video editing, listening to music, computer games, etc.
